

# UConnLaw Computer Accounts

University of Connecticut > School of Law > Information Systems

860.570.5158 > <http://www.law.uconn.edu/infosys/help>

As a member of the University of Connecticut School Of Law, you will be given login credentials to several different systems. This is intended to offer you a summary of each of those systems and the services provided therein. With the exception of the PeopleSoft Student Administration System, all systems are maintained by the University or the Law School's IT departments.

## **Law School Email (LawMail ID)**

This email account is the primary mode of communication from the law school. We strongly recommend that this account be reviewed with great frequency, and if desired, forwarded to a personal/work email account that you check often. If you need to reset your LawMail ID password, contact the Law School Help Desk at 860-570-5158 or <http://www.law.uconn.edu/infosys/help>

## **NetID**

Your NetID identifies you as a University student and gives you access to HuskyMail email and allows you to register your laptop with the law school network (allowing wireless capability). It is also used to access certain pages in the Law School website that require authentication. If you need to reset your NetID password, contact the Storrs Help Desk at 860-486-4357.

## **HuskyMail (NetID required)**

HuskyMail is UConn's student web-based e-mail program. Official university correspondence will be sent to you via this account - this includes all correspondence resulting from actions in the PeopleSoft Student Administration system. You should access this e-mail account on a regular basis or we recommend forwarding this email to your law school email account. Your HuskyMail credentials can be set up once you receive your NetID information. If you need to reset your NetID password, contact the Storrs Help Desk at 860-486-4357.

## **PeopleSoft Student Administration System**

The Student Administration System is the University of Connecticut's online registration system. In addition to registering for classes, you can access your registration appointment time, class schedule, advisor information, grades and unofficial transcript. You can also view the course catalog, search for classes, waive out of the University sponsored health insurance plan, and view your financial aid package. If you need to reset your Peoplesoft password, go to <https://www.studentadmin.uconn.edu/> or contact the Registrar's Office at 860-570-5136.

## **Law ID**

This account allows you to access computers at the Law School only, such as the Computer Lab and Journal offices. If you need to reset your LawMail ID password, contact the Law School Help Desk at 860-570-5158 or <http://www.law.uconn.edu/infosys/help>

## **TWEN/Westlaw**

The West Education Network has developed this system whereby instructors can set up class web sites. For help with your Westlaw/TWEN account, contact West at 1-800-850-9378 or our on-campus Westlaw Representative Holly Rush ([holly.rush@thomson.com](mailto:holly.rush@thomson.com)).

## **LEXIS**

For help with your Lexis account, contact our on-campus Lexis Representative Meredith Shuman ([meredith.shuman@lexisnexis.com](mailto:meredith.shuman@lexisnexis.com))
